To All Our Valued Clients,

In these trying times Pinnacle Environmental Corp. is taking proactive steps to follow the recommendations of the CDC and WHO by practicing social distancing and limiting travel.

To that end we are implementing an office staffing policy whereby we limit the number of our office personnel who are physically working in our office with the balance of our office staff working remotely from home.

We ask for your patience in us providing you with requested documentation or meeting any of your other needs as responsively as we normally would.

We also ask that in person meetings be done via conference call or video conference to limit congregating and having person to person contact.

At this time, Pinnacle is continuing to staff our projects and complete work, however this may change depending upon the direction from the individual client, as well as, any mandates from Government officials.

Thank you for your understanding.

Keep safe!
